1 July 1969

MEMORANDUM FOR THE RECORD

[redacted] Office of Security phoned to discuss the recent memo [redacted] sent to [redacted] material USIB/CIA was to include in the LBJ Presidential Library. I told [redacted] I would contact [redacted] and have the memo sent to the Agency Archives and Records Center [redacted] for Storage with other LBJ Presidential Library material. [redacted] *said the Center already has a copy, he will keep this one.*

[redacted] explained that he had visited the LBJ Library facilities at Houston, Texas and had approved them for Security storage. He also reviewed the material on hand and his request to return some [redacted] to the Agency was rejected. He also said he had briefed [redacted] and appointed him as the Security Officer for the CIA Office of Security and has arranged for [redacted] to contact the Agency as need be.

I explained to [redacted] my 1967 appointment as the Agency Liaison Officer with the National Archives and the Presidential Libraries and the procedures and facilities we have established at the Agency Archives and Records Center for the storage and servicing of documents related to the Presidential Libraries but too sensitive to leave Agency custody. I explained that we already have 8 cubic feet of material there for the LBJ Collection and one (1) box there for the President Kennedy Collection. Finally I explained that I have hand-carried three transmittals of material to National Archives for their shipment to Houston. (These were mostly unclassified items from FBIS and a box of items with a Confidential classification.) I also explained to [redacted] about [redacted] appointment by the Director in 1968 to supervise the component selections and deposits of Agency material for the LBJ Presidential Library. [redacted] said he had met with [redacted] I invited [redacted] to complete his information on the Project and visit our facilities [redacted] at his convenience.

[redacted]
CIA Records Administration Officer
